# AriLinc IoT Consulting Approach

## **1. Goals & Expectations:**

Your Consultant will help you develop a clear list of objectives and targets, to better assist with project scope and expectations.

## **2. Configuration & Modeling:**

Your Consultant will help make sure you pay only for the features and functions that you are utilizing.

## **3. Standards & Best Practices:**

Your consultant will help you develop a set of SOPs (Standard Operating Procedures) for all tasks pertaining to AriLinc.
